

Too Hot For Tots!

How **HOT** is Your **WATER**? Hot water can burn children!

HOT WATER BURNS LIKE FIRE

Danger: 60°C or higher
(140°F or higher)

Your child could be badly
burned in just 1 second!

Warning: 55°C (130°F)

Your child could be badly
burned in 10 seconds!

Low Risk: 49°C (120°F) It would
take 10 minutes for your child to
be burned. (This is *not* a safe
temperature for your child's bath.
It is too hot!)
