Workshop Details

Too Hot for Tots! is an evidence based, early childhood injury prevention program. This workshop is geared to Early Childhood Educators who work with families with children aged 0-6.

During this 3 hour workshop front-line educators will;

- Learn about the common cause of burns and scalds in the home.
- Receive a Too Hot For Tots Tool kit containing educator and caregiver resources for their centre.
- Receive instruction on how to implement Too Hot for Tots Program in their community setting.
- Receive a professional development certificate upon course completion.

The BC Injury Research and Prevention Unit endorses wide spread adoption of the Too Hot for Tots! Click [here](#) to see the THFT Evaluation Summary.

About the Workshop Facilitator

Frances MacDougall is a pediatric nurse and the creator of the Too Hot for Tots! Program. During the 18 years Frances worked on the burn unit at BC Children's Hospital, she gained a unique understanding about pediatric thermal injuries and why they happen. The goal of the Too Hot for Tots! Program is to educate the caregivers of these young children so the majority of these tragic injuries can be prevented.

About the BC Professional Fire Fighters' Burn Fund

The Burn Fund was established as a registered charity in 1978. More than 4,000 professional fire fighters in BC and the Yukon dedicate their time and skills to support burn survivors and increase public awareness of fire and burn safety issues through research, support and prevention programs.

Frances will travel to most cities within BC. All costs related to hosting this workshop will be covered by the BC Professional Fire Fighters' Burn Fund with the exception of the registration fee.

"It Only Takes a Second to Change a Life Forever"
