

Workshop for Family Educators

Too Hot for Tots!

Burn & Scald Prevention Program

April 27, May 25, June 29, 2019 Time: 8AM-4PM

It only takes a second to change a life forever

Program Objective

This program educates caregivers about preventable burn injuries to young children in the home. *Too Hot for Tots!* aims to reduce the overall number of pediatric thermal injuries in Canada.

About the Workshop

During this workshop, you will learn why pediatric thermal injuries happen and how they can be prevented. You will also be taught how to deliver the *Too Hot for Tots! Caregiver Presentation*. The *Caregiver Presentation* teaches caregivers about the common burn hazards in their home and provides them with evidence-based, burn and scald prevention strategies to keep their young children safe. Teaching materials and resources are provided and an 8 hour training certificate will be issued upon course completion.

Who Should Attend?

Anyone who educates caregivers with young children.

- Childcare professionals
- Fire Fighters
- Public Health nurses
- Social Workers
- Daycare providers
- First Aid attendants

Key Facts About Childhood Burn Injuries in Canada

0-4 YEARS

FIRE AND BURN RELATED INJURIES ARE THE 3RD LEADING CAUSE OF INJURY-RELATED HOSPITALIZATION.

1000 CHILDREN ARE ADMITTED TO HOSPITAL EACH YEAR WITH BURNS AND SCALDS, WHILE THOUSANDS MORE ARE TREATED AS OUTPATIENTS.

70% OF CANADIAN PARENTS DON'T KNOW THAT SCALDS FROM HOT DRINKS AND HOT TAP WATER ARE THE MOST COMMON CAUSE OF BURNS IN YOUNG CHILDREN – NOT FIRE.

90% MOST OF THESE INJURIES ARE PREDICTABLE AND PREVENTABLE!
